

AUTO FEED RIVET MACHINE

J-98 Auto Feed Electric Rivet Machine

- The Model J-98 is a Dual Feed machine to set rivets and caps.
- Can be a double action or single action.
- Double action with punch the hole and set the rivet & cap in your material.
- Single action will set the rivet and with the help of a washer detector it can set a washer.
- Easy to operate. Simply line up your work using the beam of light from the target laser and step down on the foot pedal.
- Safety: all J-98 automatic rivet machines are supplied with ring guard protection and an acrylic shield for operator safety.
