

J237 GROMMET MACHINE

J-237 Single Feed Electric Powered Grommet Machine

Automatically sets grommet and washers and punches through most material in one stroke

It uses a hand-operated shuttle device to move the plain washer into place, keeping the operators hands at a safe distance.

Designed for high volume grommet setting
Can set up to a #4 Grommet

Cuts a hole in the material and sets the grommet and washer in the same motion with two independent axes, it will not twist the material

Optional target laser light to easily locate grommet placement in your material

Easy to use & maintain

Back and side stop for accurate placement of grommet

Foot pedal operated, leaving both hands free

Large capacity grommet feeder bowl

DIMENSIONS: Height 56 inches
Table Dimensions: Width: 36 inches x 25 inches deep

Throat Depth: 6.25 inches

Weight: 260 lbs
